ATTEMPT TO CROSS ATLANTIC

In Hydro-aeroplane Will be Made This Summer by Several Aviators

AERO CLUB OF AMERICA

Announces Building of Immense Flying Boat by Glenn Curtiss for Rodman Wanamaker—Proposed Ocean Flight in 15 Hours.

(ASSOCIATED PRESS TELEGRAM) New York, Feb. 5.—The success of Rodman Wanamaker's flying boat in crossing the Atlantic ocean in a single flight will depend almost entirely upon its motor, according to aviators and aeroplane constructors who today let it be known that other machines were either in process of designing, or building with a similar object in view.

Through the Aero Club of America, Mr. Wanamaker last night announced that Glenn H. Curtiss was building to his order an immense hydro-aeroplane in which an attempt would be made this summer to cross the Atlantic.

When the order for the machine was placed Mr. Curtiss told Mr. Wanamaker that in his opinion a motor could be perfected for sufficient power and endurance for an over the ocean flight. His and other aviators' experiences had proven, he explained to Mr. Wanamaker that a motor can be run for forty and fifty hours without mishap. The Wanamaker flier is designed to make the ocean flight in fifteen hours. Concerning the machine, itself, Mr. Curtiss was confident that his plans would produce a model air craft.

Alfred J. Moisant, who today admitted that he was working on an airship for an ocean flight, was of the opinion that Mr. Wanamaker should modify his plans as to motive power, substituting a 500 horsepower motor for the 200 horsepower which his announcement says he contemplates using.

Mr. Wanamaker in commenting upon the proposed flight declared that its accomplishment had been a cherished vision of his for years. His purpose, he said, was in the interest of world peace and by this he explained that a trip of the ocean in one flight would awaken the world to a realization of the tremendous importance of aviation in warfare.

BIG FIRE IN FIFTH AVENUE AT PITTSBURGH

(ASSOCIATED PRESS TELEGRAM)

Pittsburgh, Feb. 5.—The stock of the Fifth Avenue Store of McCroskey & Co. was destroyed and a number of nearby business places were damaged by a spectacular fire that kept all the downtown fire companies on duty from last midnight, until dawn.

Tons of water were poured into the burning store to prevent the spread of the flames to buildings filled with valuable merchandise and the firemen were finally successful. Scores of persons on their way home from theaters when the fire broke out were delayed with water before the police could control the crowd. The loss today was estimated at \$250,000. Three firemen were injured.

James F. Richards, chief of the fire department announced today that he would immediately investigate a widely circulated report that the fire had been discovered two hours before the first alarm was turned in and efforts to extinguish were confined to a few men from a private detective agency on duty at that time.

Among the business concerns that suffered loss were Frank and Seder, the Hilton Company, W. L. Douglas shoe company, R. H. Long shoe company, Sells Brothers and the Davis Restaurant.

\$75,000 FIRE LOSS.

(ASSOCIATED PRESS TELEGRAM) Irvington, Ky., Feb. 5.—Fire of unknown origin in the business section here early today caused a loss of \$75,000. E. W. Alexander, owner of a general store destroyed, was overcome by smoke in trying to save his account books from the flame.

DIED AT WINTER HOME.

(ASSOCIATED PRESS TELEGRAM) Buffalo, N. Y., Feb. 5.—Dr. Ray V. Price of Buffalo, well known as a manufacturer of proprietary medicines died at his winter home Saint Vincent's Island, Fla., last night.

PATRIOT AGED 101 DIES.

(ASSOCIATED PRESS TELEGRAM) Napoleon, Feb. 5.—William Tuttle, aged 101, retired farmer, died yesterday from infirmities incident to old age. He is survived by 55 descendants.

Guy Biddinger Suggested as New Chief of Detectives for New York City

New York, Feb. 5.—Guy Biddinger, now assistant general manager of the Burns Detective Agency, and head of the bureau of criminal investigation, was slated by Mayor Mitchell for second deputy police commissioner and chief of the detective bureau there, according to a report today. If Mr. Biddinger is appointed to this place he will head the largest detective force in the world except that at Scotland Yard. Since the detective force has been utterly demoralized for the past two years he will have the work of reconstructing it.

Mr. Biddinger has been one of William J. Burns' most valued men, having figured importantly in the McNamara case. He and Raymond J. Burns, the detective's son, worked on it together. In Detroit he arrested J. J. McNamara, and it was Biddinger who was in charge of the trip of J. B. McNamara to Los Angeles when the Burns men were accused of having kidnapped the labor leader.

He was born in Cincinnati in 1875, and was appointed to the Chicago police force by Mayor Harrison after a civil service examination. On his fourth day in uniform he arrested dangerous Negro hold-

up men. He was made a detective at once. Later he took three dangerous bank sneaks, and for that he was made a detective sergeant. Eight years ago he was made a civil service detective sergeant, and in that position had many exciting experiences in Chicago.

Four years ago he went to the Burns agency. He had more to do with the McNamara case than to do with the McNamara case, for he it was who supplied the strongest evidence against Clarence S. Darrow, the labor lawyer, who was tried for bribery.

Another famous case was that of the seven members of the West Virginia legislature who were trapped in bribery in the contest which resulted in the election of Judge Goff to the United States Senate. He worked with Burns in the trapping of five aidmen of Atlantic City who accepted bribes.

Biddinger is a large, keen man of tireless energy. He knows the detective business as well as any man on the New York force. If he becomes chief of the detectives will have to work in the way that has made William J. Burns successful.

Six Months' Sentence for Gun Toter; Prosecutor is Determined to Stop Practice

"Crime in Licking county will be reduced twenty-five or thirty percent when this business of carrying weapons is completely broken up, and if there's such a thing as stopping it by prosecution, I'm going to stop it," declared Prosecutor J. Howard Jones, Thursday, in addressing the court of common pleas. In accordance with the sentiment expressed by the prosecutor, Common Pleas Judge T. B. Fulton sentenced George Costley to six months in the county jail and payment of costs of prosecution. Costley had been indicted on the charge of pointing firearms at Laura Allen, whose address is given as 29 Sprague street.

At 1 o'clock Thursday afternoon he came into court and entered a plea of guilty, on advice of his counsel, Attorney J. F. Lingafelter.

Six months and costs is regarded as a severe sentence, although it is far from the maximum that could be given for this offense, and it is believed the prosecutor's campaign against persons carrying weapons will be an active one.

"Irresponsible people think it smart to be carrying or flourishing a gun or a dirk, and these are the people who are constantly jeopardizing human life by carrying concealed weapons about them. Maybe a few convictions with good, stiff sentences will take the kinks out of some of these offenders," declared the prosecutor.

ing with the body of Robert E. Mercer, murder victim, who was discovered buried under the New City Hall here yesterday. He had been missing since Dec. 21.

On the same train with the body was Lieutenant Matowitz of the detective force of the Cleveland police department with a warrant for Norman Stanley, 23, under arrest at Wheeling charged with Mercer's murder. Stanley is expected to return here without extradition papers.

A woman was under surveillance here today in connection with the murder. Mercer was a time keeper on the new City Hall work Stanley was a night watchman on the same job.

NO SUNDAY BASEBALL.

(ASSOCIATED PRESS TELEGRAM) Annapolis, Md., Feb. 5.—The annual attempt to legalize Sunday baseball in Baltimore met defeat today. The bill was unfavorably reported by a committee of the house of delegates and a motion to substitute the bill for the unfavorable report was voted down almost unanimously.

CHARGED WITH THE MURDER OF ROBERT MERCER

Wheeling, W. Va., Feb. 5.—Norman Stanley, arrested here early today in connection with the murder of Robert Mercer of Pittsburgh whose body was found buried in a shallow grave in the basement of the new city hall in Cleveland decided later in the day to return to Ohio without extradition papers.

While told that a charge of murder had been entered against him in Cleveland he said "I am in the clear." He admitted he was with Mercer the night Mercer disappeared, and said he would tell all he knew of that night's happenings when the right time came.

TAKEN BODY TO PITTSBURGH. (ASSOCIATED PRESS TELEGRAM) Cleveland, O., Feb. 5.—Mrs. Jennie R. Mercer left for her home in Pittsburgh this morn-

TURNING OVER ARMS TO REBELS

Lifting of Embargo Proves a Boon to the Constitutionalists

THOUSANDS OF ROUNDS

Of Rifle and Machine Gun Ammunition Being Taken Across Mexican Border—Will Push the Case Against Smugglers.

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 5.—Hundreds of thousands of rounds of rifle and machine gun ammunition under seizure along the Mexican border are being turned over to the constitutionalists as fast as they prove ownership.

During the two years that the embargo on arms has been in force agents of the department of justice have arrested hundreds of men in the act of transporting arms across the border and have seized carloads of ammunition. In many cases the ammunition so seized was turned over after it had been used as evidence.

Such arms as may be needed as evidence against persons still under indictment will not be released for the present. It was said today however, that the department of justice probably will not attempt to prosecute all the cases against arms smugglers.

Manufacturers of arms and ammunition report through their representatives in New York city that the lifting of the embargo on exportation to Mexico had stimulated the market. No rush is reported, however. All companies report extra inquiries and some orders from border agencies but it was expected that the merchants of Texas, New Mexico, Arizona and California who have been trading with Mexico since the overthrow of the president. They laid in a large stock of cartridges and guns a month or more ago.

There will be no trouble for the constitutionalists to purchase any amount of cartridges in this country, it is said. Rapid fire guns, automatics and revolvers will also be available, but when it comes to field artillery there will be some delay. Artillery supplies the artillery, except to the United States army, and it takes from three to six months to fill an order from the other side.

SEACOAST PORT IS TAKEN BY REBELS

(ASSOCIATED PRESS TELEGRAM)

Nogales, Ariz., Feb. 5.—Mazatlan an important seacoast port in the state of Sinaloa, fell into the hands of Carranza forces today, according to information received in Nogales, Sonora, from rebel sources.

CONDITIONS NORMAL AFTER REVOLUTION

(ASSOCIATED PRESS TELEGRAM)

Lima, Peru, Feb. 5.—Oreste Ferrero, prefect of the important city of Cuzco today announced his refusal to recognize the new government of Peru, brought into power by yesterday's sudden revolution. The garrison of the town, incensed at the prefect's attitude, marched forth to his office and placed him under arrest. Ferrero was a close friend and supporter of the deposed president, Guillermo Billinghurst, and was the leader of the revolt against Leguia in 1911.

The newspapers Nacion, Accion and Popular semi-official organs of President Billinghurst's government were suppressed today and will not be allowed to reappear.

In Lima and Callao normal conditions were restored today.

REP. ROBERT BREMNER

Died Today After Taking Radium Treatment for Cancer Since Last December.

(ASSOCIATED PRESS TELEGRAM) Baltimore, Feb. 5.—Robert Gunn Bremner, member of congress from the Seventh New Jersey district and editor of the Pacific Daily Herald, died today of cancer at a local sanitarium where he has been undergoing radium treatment since last December. He had been suffering from the disease for four years.

Mr. Bremner was 39 years old and married but childless. Mr. Bremner came to a sanitarium here to try the radium after physicians in his country and Europe had failed to cure him. It was found that the disease had made such inroads upon him that little could be done to help him and that the fight against death would be made with all the odds against him.

Rep. William W. Rucker, of Missouri, Drafter of Presidential Primary Bill

Judge Rucker comes from the typically rural city of Keytesville, Mo., and he's proud of it. Incidentally he looks it and he's proud of that, too. Rucker is the House custodian of the administration plan for a Presidential preference primary bill, but while he's gone through the motions of drafting such a measure, its outpopping is far away. Rucker is chairman of the House Committee on Election of President and Vice-President and so on, but the President, after urging the primary project, is not in favor of rushing it in to clog other legislative plans in Congress and so Rucker has been see-sawing. "Darned" is Rucker's favorite adjective, and his bluntness of speech, good humor and honest service popularize him.

NEEDN'T KNOW BOOKS TO WIN ADVOCATE BOOKLOVERS' PRIZES

Contest Starting Soon Puts Premium on Intelligence Rather Than Learning—Shrewdness Will Triumph Over Wisdom—Over \$3,000 in Splendid Awards by This Newspaper—Are You Ready?

Over three thousand dollars in Advocate prizes! One hundred or more people to receive reward for the simple solution of pictures and there will be fun for them in finding the correct answers!

The announcement of the long and splendid list of prizes in yesterday's Advocate was a genuine surprise to Newark people. They had been expecting something good but they had no idea that the contest would prove to be so attractive. Any one of the prizes is well worth the little effort that is required.

All the brains are not in the heads of college graduates! Nor are all the chances for capturing a big and much-desired prize in favor of those who know the most about books.

Keen wits will win! Sharp eyes will triumph! Common sense will come out ahead!

Seventy pictures, each one plainly suggesting the title of just ONE book. Every book in the lot plainly pointed out in our finding list, now ready.

Correct the title that's right with the picture that shows what that title is. Learn the name of the one who wrote the book.

That's the main thing to land a prize in this grand struggle of wits. Once you are sure you have the title and the author right, put both of them down on the coupon that will appear below each picture, from day to day during the seventy publication days the contest continues.

DEVELOPMENTS IN ANNULLMENT CASE.

(ASSOCIATED PRESS TELEGRAM) Cincinnati, Feb. 5.—Another chapter to the suit for an annulment of her marriage by Dovey May Campbell, 13 years old, who lived with her husband only four days, was heard in the Common Pleas court today when Joseph Campbell, the husband was granted a writ of habeas corpus on his complaint that his wife was being held in restraint by her stepfather, George Kress, and her mother, Ida Kress.

Judge Cosgrave ordered that the girl be presented in court tomorrow for the annulment test.

CORONER INVESTIGATING.

(ASSOCIATED PRESS TELEGRAM) Youngstown, Feb. 5.—The coroner today was investigating the finding last night of the body of a newly born babe in a patchwork suitbox in a field on the Heasley farm, near the city. The child had been alive and died from exposure after being placed in the box, it was believed.

PROMINENT ATTORNEY DEAD.

(ASSOCIATED PRESS TELEGRAM) Oberlin, O., Feb. 5.—Frederick Webber, for a number of years a prominent attorney and Lorain county historian, died of a sudden attack of heart disease here this morning.

Clip out the coupons. Save them up, till all the seventy are printed and all out as best you know how. Then send them in.

Simple enough, isn't it? The rules are plain as print can make them. The rules are printed again in today's Advocate. Read them over if you have read them in previous issues. It will help you to get started right.

The Advocate artists are working on the pictures but even the artists do not know the names of the books their pictures will represent. They are given the "theme" and the one who made the suggestion puts an "O.K." on the picture before the illustration is made for the press.

A few of our readers are becoming just a little impatient for the big contest to start but they should remember that many details are necessary and that the Advocate is hard at work preparing for the opening. The first picture will be printed soon then one daily for 70 days. A rich reward awaits the winners.

First prize \$500 cash, second a Smith & Nixon piano, third \$175 set of furniture, fourth a building lot, fifth a beautiful diamond ring. The 35 other prizes include many things of great value, each prize being well worth the effort. The contest will provide Advocate readers with amusement and profit—and 100 splendid prizes.

The prizes are announced in this paper. The rules are again printed. The date for publication of the first picture will soon be announced. Are you ready?

IMMIGRATION BILL BEFORE SENATE TO BE THRESHED OUT

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 5.—With a provision barring illiterates, said to be the most drastic legislation of its kind for many years, the Burnett immigration bill was before the Senate today where the final question on the literacy test will be threshed out. It passed the House yesterday. Many expect the Senate to pass the bill as it stands, but President Wilson's attitude is the subject of much speculation.

Some of those who claim to be informed, say the president is opposed to the literacy test. Before Mr. Wilson signs the bill, however, he will give public hearing upon it, as former President Taft and Cleveland did on similar bills.

OLDEST INDIAN DEAD.

Ponca City, Okla., Feb. 5.—White Eagle, 111 years old, chief of the Ponca tribe and said to be the oldest Indian in the United States, died yesterday.

VICTORY FOR "DRYS" IS CLAIMED

Bour Bill Defeated by Small Margin of 50 to 48 Votes

GOOD TIME MADE TODAY

In the Disposition of Bills on the House Calendar—Special Message from the Governor—Legislature to Adjourn Friday.

(ASSOCIATED PRESS TELEGRAM)

Columbus, Feb. 5.—By defeating the bill introduced by Representative Bour of Seneca county, which provided for the appointment of a special commission of five members by the governor, to investigate financial conditions of municipalities of Ohio and report to the legislature in 1915, the "drys" are considered to have won a victory in the lower house of the legislature today. The bill provided an appropriation of \$1,000 for the expenses of the committee.

The preamble of the bill set forth that "some cities of the state are in financial straits because of loss of revenues due to the operation of the liquor license law," and the committee was empowered to summon witnesses and procure testimony with a view to making recommendations to remedy the present financial conditions of cities and municipalities. The bill was defeated fifty to forty-eight.

The Kilpatrick bill empowering the governor to appoint one member of the state tax commission immediately upon passage of the bill, to serve for three years, was passed by the House at the morning session. The bill merely corrects an error in the present law.

The bill introduced by Representative Leist, of Pike county, providing for the distribution of funds by the state auditor for relief of weak school districts also was passed by the house.

Marking time was the program of the House this afternoon and tomorrow. All bills on the calendar were disposed of at this morning's session and Speaker Swain explained that about all that remains to be done is to act on bills sent over from the Senate. Another special message from the governor however, may furnish some additional work.

Governor Cox sent a special message to the legislature today recommending legislation to define the meaning of the words "wilful act" as used in the workmen's compensation law and also urging submission to popular vote the proposal to repeal the constitutional amendment adopted in 1912 which provided for the election of at least one common pleas judge in every county.

The governor says that the workmen's compensation law has decreased the work of the courts so that so many judges are not necessary.

On the subject of judicial repeal the governor wrote, in part: "Since the election in 1912 the workmen's compensation law has become general in its application and one result of its administration has been an important bearing on the subject of the new judicial apportionment. Litigation has been so much reduced that the chief of the Supreme court, whose duty it is to make assignments of judges in such manner as will provide adequate judges in every county."

LIEBER COVERS CHICKEN THIEF WITH SHOTGUN

A double-barreled shot gun with a determined young man behind it, resulted in the capture of a chicken thief Wednesday night. Earnest Lieber of 173 South street playing the role of "the man behind the gun." His victim gave him the name as J. W. Rusk when taken into custody by the police a few minutes after Lieber made the capture.

It was about 6 o'clock when Mr. Lieber heard a commotion in the henhouse. Though it was regarded early for the operation of chicken thieves, Lieber took his shotgun and started to make an investigation. He discovered Rusk emerging from the coop with two live hens in sack.

Bringing his gun to his shoulder, Lieber commanded the man to stop. He marched the man to the house and sent a call for the officers.

When chief Sheridan and officers arrived, they found Lieber covering him with a shotgun. Lieber said he had caught the thief and was about to shoot him when the officers arrived. He was taken to the police station and Rusk was released after a hearing Friday.

Theaters

With a remarkable cast, headed by Miss Janet Allyn, Henri Bernstein's "The Thief" will be seen at the Auditorium on Saturday, matinee and night. It can safely be said that "The Thief" will go down in annals as one of the most popular strong dramatic plays that has ever visited Newark.

A consuming ambition to appear attractive and well dressed in the eyes of her husband, coupled with the forgivable feminine predisposition to a harmless flirtation forms the simple thread of the story that winds itself into an amazing tangle of domestic infelicity. The story is said to be one of the intense dramatic situations. It is drama to the highest order powerful.

Scene from "The Thief" Auditorium Matinee and Night, Sat., Feb. 7 "The Thief."

gripping with a convincing sense that just such circumstances and conditions as are so subtly connected in "The Thief" are not impossible with normal characters placed under somewhat abnormal life relations.

In a criticism of the play. The Arkansas Democrat of Little Rock, Ark., has this to say: "In the presentation of 'The Thief', at the Kemper Theater last night the players were admirably cast. As Marie Voysin, the erring wife, Miss Janet Allyn, gave a most acceptable accounting of herself.

She classes high with the emotional actress. Her work here has not been surpassed on a local stage this season except, possibly by Mrs. Leslie Carter. In the second act, which is tense from beginning to end, she was seen in a thorough test and her work brought repeated and merited encores. In the third act where she makes her final appeal to her husband, she gave a powerful touch of realism to her part."

"To add a sense of the completely artistic, the stage setting throughout was well adapted and elaborate, making the play a whole one of the most beautiful offerings of the year!" Seats now selling.

"The House of Bondage." The Columbus Evening Dispatch says:

"There is probably not an incident in the play that has not had its counterpart in real life. The play has some wholesome lessons. The first is that the home life of girls is often not what it ought to be. In the case depicted, the parents would not or could not understand their own daughter and their harshness of discipline drove her out to a life against which she revolted from first to last. As there are not many Mary Mortons, there are probably not many such parents. But that there are any should give us concern. The second lesson which also comes from an exaggeration is the need for more of the milk of human kindness. The lack of it is found here in parents, in employers, both men and women, and in the prodigals and hypocrites of society only by the very poor. The hospital attendants and the Sister of Charity is there shown anything of intelligent sympathy or helpfulness."

The films will be shown here at the Auditorium for three days starting Sunday matinee, February 8.

"Quo Vadis" at Orpheum. The most amazing achievement in the photo drama world is George Kleine's production of the marvelous Cines picture "Quo Vadis" arranged in eight parts and subdivided into three acts with eight minutes intermission between each act. Special music was composed to fit the subject and is rendered on the organ by the most talented musicians that can be obtained. The artistic note is carried out in detail and it is not to be wondered at that Mr. Kleine's production created such a sensation at the Astor Theater in New York City, in Philadelphia, Boston, Chicago, and everywhere else it has been presented. Mr. Kleine's "Quo Vadis" will be the attraction at the Orpheum Theater on February 15th, 1914, for one night with matinee and night.

MISS SIEGFRIED TO LECTURE FOR THE ENDEAVORERS

The Endeavorers of the Central Church of Christ have been exceedingly fortunate in securing Miss Siegfried as the speaker at their meeting Friday evening. Miss Siegfried has been making a tour among the churches of some of the western states.

Miss Siegfried is the Living Link missionary of the Disciples of Christ of Licking county. She is stationed at Lanes, Illinois, near the Island of Luzon, Philippine Islands. She is now home on her first furlough. She will deliver a stereotyping lecture Friday evening, illustrating life and customs in general, and the missionary work in particular, in the Philippines. Everybody is cordially invited to hear her. No admission will be charged. Free will offering to help defray the expenses of the lecture.

SODA SWEETENS ACID STOMACHS, ENDS DYSPEPSIA

When we eructate sour food, acid fluids and we belch gases it doesn't mean the stomach is lacking in digestive juices, says a noted authority who states that nearly all stomach distress and indigestion is a result of acidity; meaning, there is an excess of hydrochloric acid in the digestive organs. This irritating acid retards digestion and promotes food fermentation. Then everything eaten sours in the stomach like garbage sours in a can, forming gases which inflate the stomach like a toy balloon, producing a heavy, lumpy feeling in the chest or we eructate food, constantly belching gas or have heartburn, flatulence, bloating, water-brash and nausea.

He tells us to get a package of 10 grain Sodagen tablets at any pharmacy and take one tablet anytime followed by a tumbler of water. This will instantly neutralize acidity, stop fermentation, absorb the gases and sweeten the entire digestive system. A well-known local druggist says these 10 grain Sodagen tablets are an old favorite Antacid used by thousands of men and women because of their harmless nature, being composed of Soda, Magnesia and Calcium Carbonate U. S. P.

RADIUM ONE OF SURGERY'S GREAT AIDS

(ASSOCIATED PRESS TELEGRAM)

New York, Feb. 5.—Characterizing radium as "one of the greatest aids which surgery could possibly have," Dr. W. H. Cameron of the Pittsburgh Radium clinic, last night discussed the properties of the mineral as the rapacious agent on cancer and orthrititis at a meeting of the radium society.

Many of the physicians present said the curative effects of the mineral, as sketched in his experiments, was more astounding even than the radium itself, which Dr. Charles H. Viol, of the radium research laboratories of Pittsburgh, exhibited.

"In 1750 years," Dr. Viol said, "radium exhausted half its energy, and except for uranium, which produces the radium, it would long ago have disappeared. With the present supply of uranium, however, it will last indefinitely; very probably longer than man."

Dr. Cameron said his most astounding results had been obtained in cases of orthrititis.

"Nothing influences orthrititis as much as radium," he said, "and in many cases I have secured results which I once considered, and you would consider, absolutely impossible. One of my cases, a joint incapacitated by general disease, was cured in two weeks."

"For any cancer where it is possible to use radium I should never use the knife until after the radium. The best way, of course, is to kill the cancer by radium, then cut it out to prevent absorption, and then use radium to kill the rest of it, if there is any left."

BEST LAXATIVE FOR WOMEN

Ladies, give little chocolate coated HOT SPRINGS LIVER BUTTONS a chance to drive out constipation forever. They never fail. They are so wonderfully good, safe and gentle that the famous physician in Hot Springs, Ark., prescribe them regularly.

They speedily put the liver, stomach and bowels in the finest of condition, drive out the decomposed matter, and purify the blood.

Thousands upon thousands use them for headache, nervousness, lack of appetite, and that lack of ambition feeling. They are great for clearing the complexion of pimples and blotches. All druggists sell HOT SPRINGS LIVER BUTTONS on money back if not satisfied plan for 25 cents. For free sample write Hot Springs Chemical Co., Hot Springs, Ark.

SIXTY YEARS AGO LICKING COUNTY COUPLE MARRIED

Mr. and Mrs. William Wilkins of
College avenue, Bexley, Monday cele-
brated the sixtieth anniversary of
their marriage, which occurred Feb-
ruary 2, 1854, near Summit Station,
in Licking county.

Mr. Wilkins is now 86 years of age,
and his wife 80. Mr. Wilkins' father
was a farmer near Summit Station,
at the time of their wedding, and Mrs.
Wilkins' father was a cabinet maker
in the same neighborhood. Three
sons and five daughters have been
born to them. The daughters are all
dead. They also have six grand-
children and one great-grandchild.

Mr. and Mrs. Wilkins have been
church members since youth, having
been united with the Methodists, Re-
form and Presbyterians, and they
have one grandson who is a Presby-
terian minister. They and their three
sons are Prohibitionists and none of
them use tobacco. The old people's
favorite passage in the Bible is the
91st Psalm. They make their home
with their youngest son, John S. Wil-
kins, having moved to Columbus
about twelve years ago.

BAPTISTS WERE MUCH TOO FAST FOR METHODISTS

Delaware, Feb. 5.—Coach St. John
and his Ohio Staters were perhaps
the closest observers but not the
noisiest at last night's basketball
game in which the Denison team won
from Ohio Wesleyan by a score of 36
to 23. In the conflict was much speed
and roughness. Twenty-two fouls, 15
against Wesleyan, were called.

Wesleyan, for the first ten minutes,
did the leading. About this time an
argument started over rulings of Ref-
eree Edwards. Spectators thrust in
their oars. The official became very
strict and Denison profited because of
it all, being ahead at the end of the
half. In the last 20 minutes, the
Granville players went along rather
easily but none the less safely.

Denison guards did a splendid
batch of scoring. Jones came along
with four goals and Reese was close to
him, making three. Left Forward
Wright and Left Guard Gates of the
Wesleyan team left the floor for go-
ing over the limit of personal fouls.
Right Forward Littlek was the only
Wesleyan scorer, making 15 of his
team's 23 points. Lineup:

Denison, vs. O. W., 23.

PURITY

The trial of Morrow versus Rine
was tried in Squire Oldaker's court
here, Monday. The case grew out of
the purchase of a horse from
Mr. Rine, by Charles Morrow,
for the sum of \$65. Morrow paid
Rine \$25, in two installments, after
which he suspended payment. Then
Rine took possession of a number
of sheep supposed to belong to
Charles Morrow, but which the lat-
ter's brother, Desso Morrow, claim-
ed belonged to him. The trial here,
Monday proved the latter's claim
to the sheep. J. W. Horner of New-
ark, was attorney for the plaintiff,
and the defendant assisted by Wil-
liam Wilson represented the other
side.

The clay pigeon shoot that was
announced for last Saturday, was
postponed until Tuesday, because of
inclement weather. The supper will
be given next Saturday night at the
hall here. Everybody invited.

Miss Jessie Wright visited with
friends in Dresden over Sunday and
attended the Hicks tabernacle meet-
ing there.

Mr. and Mrs. Charles Dean and
little son were Sunday guests of
Mrs. Dean's parents, Mr. and Mrs.
Sidney Bell.

Will Pound was called to the
home of his brother, Waldo Pound,
near Smith's chapel, last week, by
the serious illness of the latter's
wife.

Jay Hunt started to Oklahoma
Tuesday morning, to work in the oil
fields there.

Harry Hickey spent Sunday with
his parents.

Miss Gladys Hamilton was a guest
of friends in St. Louisville, over Sun-
day.

Deacons, Guy Hunt and Rolla
Housholder went to Blackhand,
Monday, to work in the oil fields.

Rev. W. J. Foster will fill his next
regular appointment at Eden, Sun-
day morning and evening.

THE NEWARK DAILY ADVOCATE BOOKLOVERS' CONTEST Will Soon Start

THREE THOUSAND DOLLARS IN VALUABLE AWARDS

No Entrance Fee To Pay. No Canvassing To Do.

As this contest is intended as a delightful and educative amusement for the great family of The Newark Advocate, the Booklovers' Contest requires no entrance fee whatever from any one who competes in it. There is nothing to pay. There is no red tape nor complicated conditions. You need not even subscribe for the paper in order to share equally in the opportunities of the contest with those who are subscribers. Read the rules in this paper. They explain fully.

Unlike so many contests advertised by newspapers, this great Booklovers' Contest does not require any collection of ballots, nor any canvassing of your friends so that you may be sure of winning. Simply use your wits, follow the rules, and if your answers to the 70 pictures are correct you are certain of winning a prize. Again we say—read the rules. They tell you how simple the contest is and how easy it will be to complete successfully.

WHAT A BOOKLOVERS' CONTEST IS

This is not a guessing game, not a lottery, but a competition of wits. It is an educational enterprise in which brains and keen insight will succeed—not merely blind luck! Any one young or old, will have an absolutely fair and square opportunity to win a valuable reward without a penny's outlay. Each contestant will start on absolutely equal terms; and every one will be judged impartially simply upon the merits and correctness of the answers.

The idea is to discover the correct titles suggested by a series of 70 pictures, each picture representing the name of a book.

Those who discover the greatest number of titles properly belonging to these 70 pictures will win the prizes provided they follow the simple rules.

The winner may not happen to send in half the right titles of the series. It is not necessary to have a college education or be widely read in modern literature, to stand the best possible chance of winning a valuable prize in the great contest. Simply common sense and sharp wits are needed.

The first picture will be printed very shortly. From that time on one picture and coupon will be printed every publication day until 70 have appeared. Start when the first picture appears and stick to the contest until the 70th picture is published. Then—and not until then—send in your replies written on our coupons. If you are any way near correct in your solutions you are likely to win a prize of value.

No person living will alone know the right answers to these 70 pictures.

You have the positive guarantee of The Advocate that every person who enters this Booklovers' Contest will receive an absolutely square deal and have a fair and equal opportunity to win the largest or any other prize to be awarded.

All Our Readers Can Compete On Equal Terms

OPEN TO EVERY ONE. ONE HUNDRED CAN WIN

Whether a regular reader of The Advocate or not, old or young, rich or poor may compete in the Booklover's Contest provided that he or she lives in either Licking, Knox, Delaware, Franklin, Fairfield, Perry, Coshocton or Muskingum Counties, Ohio. People living outside of these counties may not compete; but any one in them can. As stated elsewhere, no entry fee is required, no subscription is necessary and the contest is absolutely free to every man, woman or child, living in the territory named. Watch for the announcement of the first picture, which will appear in these columns within a few days.

Three thousand dollars worth of valuable prizes, including \$500 in cash and many more desirable gifts such as musical instruments, furniture, clothing, jewelry, etc., will make up the array of awards. There will be at least one hundred prizes, perhaps more. Therefore fully one hundred people are certain to win a prize worth having, if they supply the right answers to the pictures in this contest. A committee of men of the highest standing will award the prizes fairly.

Watch For Announcement of The First Contest Picture

The Advocate Printers are now at Work on the Catalogue or Finding List---When it is finished the Paper will announce the Fact---An Impartial Opportunity for Young and Old in This Great Contest.

MT. VERNON TO PLAY HERE ON FRIDAY NIGHT

Friday night's basketball game be-
tween Mt. Vernon High and Newark
will be a battle royal. Newark has
been suffering from the sting of de-
feat administered by Mt. Vernon on
the occasion of the last trip to the
Knox county capital a few weeks
ago and the slogan since that time is
"beat Mt. Vernon."

The Knox county lads have a
splendid team. They have met and
defeated a number of strong teams
since Newark played against them.

Newark has not been standing still
by any means and while the locals
suffered defeat last Friday at Dela-
ware, they showed considerable im-
provement in team work and basket
shooting.

Mt. Vernon comes with the deter-
mination to capture this game. The
team aspires to the Central Ohio
championship and a defeat at the
hands of Newark would make their
claims doubtful.

As an added feature for Friday eve-
ning, the local management has ar-
ranged a game between the junior
and senior boys. These two classes
have turned out some very clever
players and the two teams will put
on a good game.

ATHLETE GOES INTO BUSINESS IN THIS CITY

Paul Perry, who owns and op-
erates the Paul Perry dry cleaning,
pressing and repair establishment, in
South Second street, probably has
followed more professions for making
his livelihood than any young man in
Newark.

When a boy, after school hours he
sold newspapers. On graduating
from school mechanics interested
him, so he learned the machinist's
trade, studying mechanical drafting
at night. Later he took a position as
an apprentice in a ladies' tailoring
establishment, and in about two years
he became a skilled and experienced
ladies' tailor. At nights he attended
gymnasium classes and began to take
an interest in athletics. He became
a recognized athlete around his home
city, Cleveland, in such events as the
pole-climb, standing broad jump,
wrestling and jiu jitsu, the latter the
Japanese art of self-defense, which he
later taught when he became phys-
ical director and trainer in several
gymnasiums.

At this stage in Perry's career he
became ambitious along literary
lines, and wrote several articles on
physical culture, some of which were
issued in book form. It was at this
time that he went on the road giving
public exhibitions, visiting the largest

These Are the Rules of the Advocate Booklovers' Contest

Any person may compete in this contest who lives either in Licking, Delaware, Knox, Coshocton, Muskingum, Perry, Fairfield or Franklin counties, Ohio, except employees of the Newark Advocate or members of their families.

Answers to the picture must be written upon the coupon blank which will be printed every day with each picture during the seventy publication days the contest will last. Both picture and blank must be clipped from the paper, and the blank properly filled in with the name of the book and the author's name, together with the name and address of the contestant written clearly and plainly in the space provided. Not more than one person's name may be written on any coupon.

Each picture will represent the title of only one book, but there may be some pictures that suggest the titles of several books. For the benefit of contestants, and to allow for this variety of solution, any contestant may give as many as five answers to any picture, at will; but not more than one solution may be written on any coupon. If the contestant gives two answers as likely to include the correct one, two coupons must be used; if three answers, three coupons, and so on.

In each instance, whether the contestant gives one answer or five answers to any picture, both the picture and coupon must be used for each of the answers; and not more than five answers to any picture will be permitted.

If any one of the five answers that may be given to any picture is correct, the contestant will be credited for that correct solution and will not have the incorrect ones counted against his or her chances.

Prizes will be awarded to every contestant, by the Contest Judges, who sends in the largest number of correct answers upon the smallest number of coupons. Thus, if a contestant gives the correct answers to 70 of the pictures and uses only 70 coupons, that contestant will rate higher in the prize awards than one who uses 140 coupons or any higher number up to 350 for supplying the 70 correct answers.

If two or more persons, supplying the same number of correct answers, have used the same number of coupons for their answers, the highest rating will be given to the one whose answers are most neatly prepared, in the opinion of the judges.

No contestant will be allowed to submit more than one set of answers, which must include not less than 70 or more than 350 coupons, with accompanying pictures.

Positively no solution may be sent in to the Contest Editor until every one of the seventy pictures has been printed. Answers in complete sets, as just specified above, will then be received in this office, and should be addressed to "Contest Editor," Booklovers' Contest, Advocate, Newark, Ohio. The awards will be made strictly according to the correctness of each set of answers, and the correctness shall be determined by the Finding List, the catalogue issued by us as governing the Booklovers' Contest. This catalogue can be obtained from the Advocate office for 25c (27 cents if by mail), and will include in its 5000 titles every one used in the contest. Awards will be announced in this newspaper after the close of the contest.

It is not absolutely necessary to send in solutions on blanks clipped from the Advocate, as duplicate pictures may be drawn by the contestant, if he or she so desires, or duplicate blanks may be obtained at the office of the Newark (Ohio) Advocate.

No Possible Reunion Of Progressives and Republicans

J. H. Larimore, former Columbus newspaper man, a former Progressive Republican, who refused to submit to the theft of a presidential nomination, writes the following to the Ohio State Journal:

"NO PARTY REUNION.
"Editor Ohio State Journal:
"Harry M. Daugherty is extremely kind. He declares that no apology will be asked of those who, refusing to stand by the G. O. P. in 1912, organized the Progressive party. Magnanimous! Generosity unparalleled!
"But I fear the Progressives have gone so far in their sinful ways that they won't even come back to the fold sans apology. Mr. Daugherty certainly is not so dense that he cannot see that there is possible no reunion of Republicans and Progressives whatever.
"In the first place, if apologies are mentioned, the apology must come, not from the Progressives, but from the Republicans. If there

Republican Legislation Unmasked

A correspondent writes as follows to the Columbus Dispatch:
"When the liquor license law was before the general assembly last winter many people opposed that section which gave the appointing power of the local boards to the state board, it being practically believed that the law would not be enforced.
"As a matter of fact, however, the license law has been more effectively enforced throughout the state than any other law. From the very certain wicked interests who supported that section are howling, it is evident that in creating that section the law makers builded more wisely and effectively than they intended.
"Now come the Republican members of the legislature and propose to bind their party to emasculating that section. Local self-government as an Anglo-Saxon institution never embraced the power to set aside the criminal laws of the state, and yet that would be the effect of carrying out the Republican legislative program. In joining the emasculating of the license law with the repeal of the Warnes law they have made common cause with both bootleggers and tax-dodgers. Evidently the G. O. P. is still in the clutches of invisible government. The late Allen O. Myers once said that the Republican party did not win because of merit, but because the Democrats had the happy faculty of acting the fool at the right moment. The situation has changed. The real Democratic aid society, Mr. Boyle, is not in the Bull Moose camp, but if you will look over the Republican organization you will see the best reason why Governor Cox is going to be re-elected."

A NOVEL INTRODUCTION.

Dr. Howard Co. Makes a Special Price.

The Dr. Howard Company have entered into an arrangement with W. A. Erman drug store, by which a special introductory offer will be made of 25 cents on the 50 cent size of their celebrated specific for the cure of constipation and dyspepsia. Headaches, coated tongue, dizziness, gas on the stomach, specks before the eyes, constipation and all forms of malaria and liver trouble are soon cured by this scientific medicine.
W. A. Erman has been able to secure only a limited supply, so every one who wishes to be cured of dyspepsia or constipation should call upon him at once or send him 25 cents by mail and get 50 doses of the best medicine ever made. On this special half price introductory offer, with his personal guarantee to refund the money if the specific does not cure.

On Second Thought

Nearly every woman believes she invented the art of wearing clothes well.

We have often wondered to what practical use a sword could be put. Recently we found out. At a military wedding in our town they used the groom's sword to cut the wedding cake.

Talk with any little man long enough and he will remind you that Napoleon was of small stature.

An active, sneering enemy is of more real value to a man than two ordinary friends.

An enthusiastic lodge man is one who has the names of the various organizations with which he is affiliated printed on his business card.

There are various methods of disposing of canned salmon, but that of the Ohio man who fed it to a cat seems to be the most satisfactory.

A statesman is a politician who has been elected to office.

At least half of the attempts to improve conditions are plain meddling with the affairs of others.

Uncle Walt
Pessimism.
I never knew a man to sing or wear an optimistic smile, when going out of doors to bring a load of sorrow from the pile. I've studied men for many years and never one I've known has worn a cheery smile when neighbors' steers broke in his field and ate his corn. No man has ever danced a jig of happiness, full well I know, when trying to escort a pig the way it didn't want to go. No sunshine lights the eye or brow of any man who leaves his bed on snowy morn, to milk a cow in some old windy, drafty shed. Oh, there are times—not far between, when mortals cannot sing and smile, when they are feeling dour and mean, and wish that sackcloth were in style. And then the optimist who's wise will hide himself behind a cloud; foolhardy is the man who tries to force his sunshine on the crowd. In our town there's a Sunny Jim who works the sunshine tap too much; he has a beefsteak on his glim, and cannot walk without a crutch.

Wisdom from Washington

By ARTHUR W. DUNN.

Washington, Feb. 5.—[Special.]—These Baltimore nominations for the presidency are interesting in a way. Champ Clark, who was almost nominated in a convention, nominated at a dinner—Borah of Idaho as the Republican standard bearer in 1916. Then there was the other nomination by the convention which made Woodrow Wilson president. Of the two the average man would prefer the convention method, although Wilson has discarded it and declared for presidential primaries.

After dinner nominations must be something like the nominations in the house of representatives. Back in 1904, when Roosevelt had absolute sway, William Alden Smith enthused the house by naming Uncle Joe Cannon for president in 1908. Several times last year Speaker Clark was nominated—by Republicans—in speeches on the floor of the house.

Perhaps that recent Baltimore effort on the part of Champ was inspired by the different "paper" nominations he has received.

No Lightning Rod.

The interesting fact about the nomination of Borah is that he is one man without a lightning rod—realizes that a man from the Pacific slope and a small state will not be taken unless it is to lead a forlorn hope. Borah knows that if there is any hope for Republican success in 1916 the nomination will go to a man from a populous state or a doubtful state or that the nomination will go to some one who has not been as positive as Borah has been in expressing his opinions.

Panama Canal Cost.

Few people complain of the cost of the Panama canal. Congressman Knowland of California said that although the first estimate was \$135,000,000 and we have seen it grow to \$400,000,000, there has been no complaint or criticism, because the money was honestly expended. He says that beyond question the Alaska railroad, one of the real experiments in railroad building and operation, will cost more than the estimate, but if there is no graft, no dishonesty, there will be no complaint on the part of the people.

"They Want Blood."

Not so long ago Senator Cummins remarked that if a senator wanted attention he should call a man a liar. "They want blood," was his comment. I was reminded of that remark when the senate was in such a turmoil recently over charges by Senator Lane of Oregon and because of a little "dip" between Stone of Missouri and Bristow of Kansas. Altogether it illustrated well the Cummins idea. When the row began there were not so many senators present. But as it progressed they came into the chamber from every door until there was a larger attendance than has been seen at one time in months.

Smoot Sees Facts.

Senator Smoot sees further than those who look at the situation with the naked eye. He says that the Democrats in the senate "are split into more factions than we ever were." If that is true they have not shown it in the voting. Some one has held the factions together when there was voting on important legislation going on. Perhaps the clockwork talk shows divisions, and it is true that there is division about pension legislation, but for a split party the Democrats are putting up a mighty good bluff.

"CASCARETS" FOR COSTIVE BOWELS
No Constipation, Biliousness, Headache, Sick, Sour Stomach, Indigestion or Foul Breath.
Get a 10-cent box now.
Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a still barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

HARMONY

DON'T WAIT

Take Advantage of a Newark Citizen's Experience.
When the back begins to ache, Don't wait until backache becomes chronic;
"Till kidney troubles develop;
"Till urinary troubles destroy night's rest.
Profit by a Newark citizen's experience.

H. J. Johns, 221 W. Main St., Newark, O., says: "Four years ago I had pains in my back, which were so bad that I couldn't straighten after stooping. My kidneys were also weak. I finally used Doan's Kidney Pills, procured at A. F. Crayton & Co., Drug Store. They cured me, and I had no further trouble for over a year. Then I caught cold and it settled in my back and kidneys. I used Doan's Kidney Pills again and they cured me. I am always telling other people about this remedy, and I know of no one who has taken it as directed and has not had satisfactory results. Don't simply say for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Johns had. Foster-Milburn Co., Props., Buffalo, N. Y."

First Things

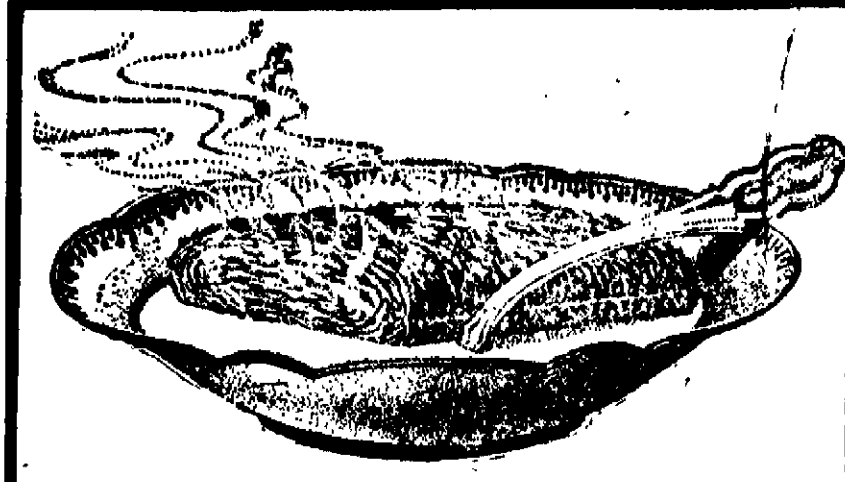

The first presentation of the Victoria Cross took place fifty-eight years ago today. This order of merit was instituted for the purpose of recognizing acts of signal bravery and devotion to Queen and country by soldiers and sailors engaged in warfare. It originated in connection with the war in the Crimea. The first important distribution of crosses was in 1857, when sixty-two of the heroes of the Crimea, representing all ranks of both the sea and land service, received the coveted honor. The following year many heroes of the Indian army were recipients of the decoration. The cross is of bronze, of Maltese form, and the center bears the figure of the crown surmounted by a lion. Below, on a scroll, are the words, "For Valour." The cross is suspended from a blue ribbon for the navy, red for the army. The cross is connected with the case by an initial "V." The first crosses were made from Russian cannon from Sebastopol. Ever since the institution of the order the Victoria Cross has been the most coveted of all British decorations. It is open to all officers and men of the regular, auxiliary and reserve forces.

Human Procession
Simcon Eben Baldwin, lawyer, educator and jurist and now serving his second term as the Democratic governor of Connecticut, was born in New Haven seventy-four years ago today. The venerable chief executive of the Wooden Nutmeg state graduated from Yale half a century ago, and was admitted to the bar at the same time. For several years he was instructor in law at his alma mater, and later became a member and afterward chief justice of the Connecticut Supreme court.
Governor Baldwin's interests are not confined to politics, law and government, but take in the whole range of human activity. One of the hopes he fondly cherishes is that, in the course of time, Christian unity may be attained. A few months ago, in a remarkable prophecy, he predicted that all the Protestant sects will eventually "bury the hatchet" and become one, and that possibly Protestantism, through Lutheranism, may become allied with Catholicism, thus making one church of the Christian faith, really catholic in its world-wide scope.
"I am one of those," declared the Governor, "who hope for a virtual reunion of all Protestant denominations during the next century or two. Nor do I deem it impossible that the Catholic church may ultimately follow. It may be now only a vision, but visions have before now come true."
Governor Baldwin is a descendant of Roger Sherman, who was one of Connecticut's four signers of the Declaration of Independence. The Governor stands for stern measures in the treatment of criminals, opposes the abolition of capital punishment, and has advocated the restoration of the whipping post for certain classes of offenders.
Sir Hiram Stevens Maxim, the gun-maker and inventor of the Maxim silencer, "cordinate," and various electrical appliances and ordinance improvements, was born at Sangerville, Me., seventy-four years ago today. As a young man he was an apprentice to a coach maker and was employed in foundries and iron works. The Maxim gun, an automatic system of firearms, made him famous. In 1881 he went to England to live, and in 1901 his inventive genius was recognized with the honor of knighthood. He was also made a chevalier of the French Legion of Honor.

Mahlon Pitney, the junior member, in point of service, of the United States Supreme court, was born at Morrilton, N. J., fifty-six years ago today. He was chancellor of New Jersey when President Taft elevated him to the supreme bench of the republic. He was educated at Princeton, and admitted to the bar in 1882. He served in Congress some years before going there to don the ermine. Justice Pitney's appointment was bitterly criticised by the labor element, on account of a decision he had made that strikers have no right to plead their cause peacefully with those who have taken their places. "The right of a master to have his servant continue in his employ without molestation or enticement by any third party is a property right," ruled the justice.

Miss Maxine Elliott, who returned to the stage last autumn in a London production of "Joseph and His Brethren," was born in Maine forty-one years ago today. Her father, Captain Thos. Dermot of Oakland, Calif., was the owner of a large sailing vessel, on which Maxine and Gertrude spent much of their youth. After a year in a convent, at seventeen she made her stage debut, and gradually won a place as one of the foremost American actresses. Of late years she has spent most of her time in England, where she has a beautiful estate in the country. Miss Elliott was Nat Goodwin's third wife.

GIRLS! BEAUTIFUL, CHARMING HAIR, NO DANDRUFF--25 CENT DANDERINE

Try this! Doubles beauty of hair in few moments, and stops it falling out—Grows Hair.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine" hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments

you have doubled the beauty of your hair. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Agents, Hall's Drug Store.

USE GOOD SERUM TO PROTECT HOGS AGAINST CHOLERA

(ASSOCIATED PRESS TELEGRAM)

Washington, Feb. 5.—At least 90 per cent of all deaths of hogs from diseases in the United States are caused by hog cholera, assert specialists of the department of agriculture in a statement today issued in response to numerous inquiries from farmers concerning methods for distinguishing hog cholera from other swine diseases.

A number of suggestions are given as an aid to the early recognition of hog cholera. Farmers are urged to remember that cholera kills millions of hogs where other diseases kill thousands and attention is called to the fact that prompt administration of anti-hog cholera serum is essential to success.

According to the specialists, the matter of diagnosis is not so important or difficult as it seems. In the case of any fatal outbreak, it is stated, the chances are nine to one that the cause is hog cholera. "From a practical standpoint," says the department, the important thing is to recognize hog cholera as soon as possible after its appearance in a herd in order that the serum may be applied before the disease progresses too far. Good serum may be depended upon to protect well hogs, and even to cure a large percentage of those in the earliest stages of the disease, but it will not be of much avail when used upon hogs that are already visibly sick."

This Home-Made Cough Syrup Will Surprise You

Costs Little, but there is Nothing Better at Any Price. Fully Guaranteed.

Here is a home-made remedy that takes hold of a cough almost instantly and will usually conquer an ordinary cough in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready-made cough syrup for \$2.50.

Mix one pint of granulated sugar with 1 1/2 pint of warm water, and stir 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps end a cough.

You probably know the medical value of pine in treating bronchial asthma, bronchitis, spasmodic croup and whooping cough. Pinex is a most valuable concentrated compound of Norway white pine extract, rich in guaiacol and other natural healing pine elements. Other preparations will not work in this combination.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has it or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

NOSTRILS AND HEAD STOPPED UP FROM COLD? TRY MY CATARRH BALM

Instantly Clears Air Passages; You Breathe Freely; Dull Headache Goes; Nasty Catarrhal Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals

the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

WARNER IDENTIFIED BY MICHIGAN PORTER AS PULLMAN ROBBER

(Associated Press Telegrams)
 Zanesville, Feb. 5.—Harry Warner, the man who went through a day coach on an early morning Baltimore and Ohio passenger train here a week ago, was today positively identified by negro porters as the man who robbed passengers on a Michigan Central train a few weeks ago and got away with \$500. His real name is believed to be Leo Costello. Sheriff Frick captured a letter from his prisoner addressed to Mrs. Costello at Columbus, who is believed to be his mother. Costello or Warner sought to have a prisoner who was being released take the fetter out with him and mail it. One of the porters who was here today stated that the robber forced him to carry a satchel through the Michigan Central train.

Better Health Contest of Advocate for Gold Prizes Ends Tomorrow

The state public health exhibit, brought to Newark for a week, with nightly free lectures, under the auspices of the Federation of Women's Clubs, is over. The exhibit closed Wednesday night with the lecture by Dr. E. F. McCampbell of the state board of health, and Thursday the work of removing the exhibit was begun by Director Spencer. The itinerary planned by the state board of health makes Zanesville the next place for the exhibit to be held, opening Feb. 9.

Members of the state board of health, lecturers and all persons in any way connected with the exhibit have unhesitatingly declared that the crowds which nightly poured into the exhibit rooms, and to the free illustrated lectures, by far outnumbered those greeting the campaign in any other city visited by the exhibit.

"If Newark people manifest the proportionate degree of interest in bettering sanitary conditions in their city, your mortality rate will be greatly reduced within another year," asserted one of the visiting officers.

A large audience attended last night's lecture. Many who missed the opportunity of obtaining three state exchange coupons in order to enter The Advocate's Better-Health contest, took advantage of the new regulation by which only one state exchange coupon will be necessary.

In his lecture, Dr. Eugene F. McCampbell, who is the executive secretary of the state board of health, gave an interesting review of the public health problems that face Ohio. He laid down the general principle that in order to materially combat the preventable diseases which kill thousands in this state every year, the people generally must be educated in the simple methods of protecting themselves.

He first discussed the terrible infant mortality in the United States, declaring that out of the 1,500,000 children who are born every year in this country, 300,000 of them die before they reach their second birthday. He attributed these 300,000 deaths to ignorance on the part of the parents in fully ninety per cent. of the cases.

Dr. McCampbell classified the chief causes of death among babies as digestive, respiratory, and congenital debility. Under the digestive heading, he placed improper methods of feeding, declaring that the lack of knowledge on the part of many

mothers as to this important feature of the baby's raising, is responsible for many deaths.

Under the respiratory classification, Dr. McCampbell declared that insanitary conditions in the home—bad housing and improper ventilation are responsible for a large per cent. of these deaths.

"Whooping cough is by no means the mild disease that many parents seem to think," Dr. McCampbell declared. "It is in reality very serious, because it runs into bronchitis, pneumonia and like serious illnesses."

Under the third class, congenital debility, Dr. McCampbell placed the thousands of infants who were born unhealthy. This, he said, was due to the terrible extent of social disease in this country.

"Between 50 and 60 babies die needlessly in Ohio every day," the speaker said. "You must check this by two things. First, by training the mother in the proper care of her baby and, secondly, by providing the baby with proper food, where it is not accessible in the home. This latter condition is met in the cities of the state by the free milk stations and day nurseries which are doing great work."

Dr. McCampbell then proceeded to point out that after the state assists in saving the baby, it must go farther and protect the child in school age. He designated two things as being of great importance; the teaching of hygiene in the schools and the introduction of medical and dental inspection of school children.

"We now have this inspection of school children in several of the large cities of the state," he declared. "It is pointing out the startling fact that at least three-fourths of the children in our Ohio schools are defective in one way or another. The defects are chiefly in hearing and sight, enlarged nostrils, spinal curvature and organic heart disease. School inspection calls attention to these defects and gives the children's parents the chance to have them corrected before they become serious. In many instances these corrections will modify the child's entire career. Dental inspection in Ohio has shown that one-half of the children have bad teeth."

The diseases which menace men and women of maturity were treated in the third section of the speaker's address. Among these he named occupational diseases. Dr. McCampbell said this subject is now being

studied by the state board of health, and that in two years enough information will have been collected to recommend to the legislature definite laws that will greatly curb these diseases.

He enumerated many other problems for the public health authorities, the necessity of protecting the food and water supply of every community; the necessity of installing proper garbage disposal plants, which in nearly every case pays for itself; the necessity of systematic inspection of food sold in each city, etc.

Dr. McCampbell's entire lecture was brief and to the point and was heard with profit by his audience. The Advocate's Better-Health contest closes tomorrow night at 8 o'clock, by which time all lists of suggestions must be in this office. Each person's list should be sent in a sealed envelope, and the list must bear the author's name and address. Then the judges will go over the suggestions and determine the winners, in time for final results to be announced in Saturday's Advocate.

Great interest has been manifested in the contest, and there is every reason to believe it has accomplished its purpose, namely, the awakening of interest of the people of Newark and Licking county in the needs of better sanitation everywhere.

Use Public School Buildings In Fight to Check Juvenile Crime

By **FREDERIC C. HOWE**, Director of People's Institute, New York City

STUDIES of the records of juvenile offenders show that a large percentage of arrests and commitments are for violations of city ordinances by children playing in the streets. The boy so arrested acquires a bad name. He is spotted by the police. If the offense is repeated he becomes an old offender. For some cause or other he is detained in the police station or committed to an institution, and the long, weary journey to the penitentiary begins. This is true of a multitude of very young boys. Their offenses are traceable to the lack of opportunity for play and the fact that the only plays accessible to them involve a violation of the law.

THE GANG LIFE OF NEW YORK IS A PRODUCT OF THE PLAY SPIRIT LED INTO CRIMINAL PRACTICES PARTLY BY THE SECRETIVENESS MADE NECESSARY BY THE LAW. BOYS ORGANIZE BY STREETS OR DISTRICTS. THEY FIGHT WITH ONE ANOTHER, ORGANIZE FOR STEALING AND OTHER PREDATORY PURPOSES. IN CERTAIN SECTIONS OF NEW YORK GANG FIGHTS ARE REPORTED DAILY. ASSAULTS, STABBING AND MURDERS ARE OF FREQUENT OCCURRENCE, GROWING OUT OF THE PREDATORY PLAY OF THE GANGS IN THE MORE CONGESTED QUARTERS. THE PUBLIC SCHOOL BUILDINGS OFFER THE BEST POSSIBLE AGENCY FOR THE DEVELOPMENT OF A CITY WIDE PROGRAM OF LEISURE.

THERE ARE MORE THAN FIVE HUNDRED SCHOOLHOUSES IN THE CITY, WHICH REPRESENT AN INVESTMENT OF ONE HUNDRED AND THIRTY-FIVE MILLION DOLLARS. THE SCHOOLS ARE USED FOR BUT SIX OR SEVEN HOURS FOR FIVE DAYS IN THE WEEK AND BUT NINE MONTHS IN THE YEAR. THEY LIE IDLE IN THE EVENINGS, THE LATE AFTERNOONS, ON HOLIDAYS AND SUNDAYS AND ARE USED TO NOT MORE THAN FIFTY PER CENT OF THEIR POSSIBLE EFFICIENCY. THE INTEREST ON THIS INVESTMENT IS FIVE MILLION DOLLARS A YEAR, AND MEASURED IN MONEY TERMS, THE LOSS TO THE COMMUNITY THROUGH FAILURE TO USE THESE FACILITIES UP TO THEIR CAPACITY IS IN THE NEIGHBORHOOD OF TWO AND A HALF MILLION DOLLARS.

LICKING.

Mr. and Mrs. Charles Harter have both been on the sick list the past few days.

Mrs. Frank Withoff of Georgia is visiting her sister, Mrs. W. B. Evans. There will be the regular services at this place next Sunday morning.

NOSTRIOLA OPENS NOSTRILS

BREAKS A COLD, STOPS CATARRH

This Simple Common-Sense Treatment Costs But a Trifle and Brings Quick Relief.

Nostriola is a simple, harmless antiseptic balm that quickly opens the head, purifies and heals the mucous linings of the air passages and this treatment is much more pleasant and satisfactory than stomach dosing to cure a cold.

Everybody knows that colds lead to Catarrh, Catarrhal Deafness, Catarrhal Headache, Nasal Catarrh, Hay Fever and kindred diseases.

The best time to cure Catarrh is before it becomes chronic, and the quickest way to get results is to apply the treatment direct to the seat of the trouble.

The nostrils and the air passages are the breeding places for the Catarrhal and Hay Fever germs, and these germs thrive and grow when the parts are sore, swollen, and inflamed by colds.

The Nostriola Treatment always affords quick pleasant relief, and many people now use nothing else for Colds, Croup, Catarrh, etc.

A 25c tube to Nostriola contains sixty days' treatment and all druggists sell it. Buy a tube today, and you'll wish you had tried Nostriola sooner.

BOARD MEMBERS ENJOY A CHAT; ONLY TWO THERE

Democrats on Board of Education Wait in Vain For Quorum To Proceed With Election of Fifth Member

The board of education might have met Wednesday night and might have elected a member to succeed J. K. Dewey, resigned, after which bills of the usual amount might have been allowed, followed by the regular discussions on building improvements.

But it didn't. It was a cold night for the Democratic members of the board. In fact it was such a cold night that the word "freeze-out" was suggested. Anyhow, W. E. Miller and S. W. Haight went to attend the meeting. The regular meeting, Tuesday night, was postponed because Mr. Miller was out of town. So, Wednesday night Mr. Miller was back on the job. The evening was spent in an informal discussion of the merits of the lesson taught by Jonah and the whale. Superintendent Hawkins and the reporters occasionally offered a suggestion of a new thought.

At 8 o'clock all the guests departed, after thanking Truant Officer Frank Handle and Superintendent Hawkins for a pleasant evening.

No regrets were read from President W. C. Christian and Dr. W. C. Rank, absent republican members. Unless a special meeting is called to elect a fifth member to the board, the tie can't be broken for two more weeks.

VICTORY

(Continued from Page One.)

quate facilities everywhere, finds that the number of judges under the old apportionment is sufficient to carry on the work; in fact it is an open question whether the committee appointed to report on the simplification of judicial practices and the actual necessity as to the number of judges in the state will not ascertain under the conditions growing out of the operation of the workmen's compensation law that the common wealth cannot without impairment of the service reduce the existing number of judges, of the court of common pleas. Aside from this the natural processes of development in the rural counties are reducing the measure of litigation. I deem it of the highest importance that a constitutional amendment be submitted to the people. The cost to the state in creating the additional twenty-two judges in salaries will be more than a half million dollars for the six year term. The situation is so easily analyzed and the plea against this unnecessary expense so far above successful challenge that it becomes the transcendent duty of every member of the legislature and the executive department as well, to acquaint the people of the state of the changed conditions and give them an opportunity to provide for and profit by them.

"I recognize that partisan considerations will rise in opposition to this suggestion, but, I can conceive of no conscientious objection from any quarter to this proposal. The amendment could be submitted on primary day in August without either an addition of cost or inconvenience to the public. If it is adopted the status quo of 1912 is restored and elections can be held in the old subdivisions this fall as they would have ensued if the amendment had not been adopted. On the other hand, if the vote this year is adverse, then there is not the slightest interference with the operation of the county judge plan since your honorable body has well under way the legislation which provides the judicial machinery."

(ASSOCIATED PRESS TELEGRAM)

Columbus, Feb. 5.—Modification of the "blue sky" law, to require the filing of less information on regular industrial securities and more detailed information on questionable real estate securities, will be recommended by Governor Cox to the legislature at the special session.

The governor expected to send a special message on this subject to the legislature this afternoon. Party lines were drawn in the lower house of the legislature today when the republicans made an effort to have the House consider three bills which provide for uniformity of textbooks. Democrats defeated the Republicans plan after a heated debate.

Representative Gilson, of Jefferson county, who, early in the session introduced a bill which provides for uniformity of textbooks in the state exclusive of cities, succeeded in getting his bill reported out of committee, but on a roll call it was denied a place on the calendar. Bills introduced by Representative Woodworth of Athens county, and Representative Anderson of Green county, which provided for county uniformity and state uniformity textbooks respectively, failed to be reported out.

The Senate passed the Hudson bill providing for uniformity of school books in rural districts throughout the state. The vote stood 22 to 2.

(ASSOCIATED PRESS TELEGRAM)

Columbus, Feb. 5.—Friday evening is the time set for adjournment of the special session of the legislature according to most predictions of Senate and House leaders today. Speaker Swain declared the House is ready to quit work now and will be through by Friday morning. Lieutenant Governor Greenlund, of the Senate, declared his house probably would be in session and busy until late Friday afternoon.

The Mills bill permitting the issue of bonds by municipalities above the ordinary bond limits for the acquisition of public utilities and the Hudson uniform textbooks bill are

being considered by the Senate.

VERDICT AGAINST PATROLMAN HECK IN DAMAGE SUIT

Engineer Pyle Gets \$200 For Alleged Malicious Arrest—Other Court News.

Howard Pyle, B. and O. engineer, living in Gay street, won a verdict of \$200 from Police Patrolman Adolph Heck by decision of a jury in common pleas court, Thursday. Pyle sued for \$5,000 for alleged malicious arrest.

The evidence was to the effect that one morning in 1912, about 2 o'clock, Pyle was returning home from a run on the road, passed to look in a store window and was stopped by Patrolman Heck, who had been instructed to keep a sharp lookout for prowlers following a robbery a few hours before. An altercation ensued between the citizen and the officer, with the result that Heck called the patrol wagon and sent Pyle to the city prison where he was confined for six hours without an affidavit being filed

against him. He was subsequently discharged by the mayor without a hearing, it was testified. Pyle was represented by Attorneys S. L. James and E. S. Randolph. City Solicitor Norpell handled the case for Patrolman Heck, and intimated, after the verdict was announced, that the case would be appealed.

WICKED CHICAGO MAY ABOLISH THE THIRST PARLORS

(ASSOCIATED PRESS TELEGRAM)

Chicago, Feb. 5.—Petitions for a "wet and dry" vote in Chicago at the aldermanic election on April 7, will be filed with the board of election commissioners today, according to a notice served on the board. The question will be placed on the regular ballot, which carries the names of the aldermanic candidates, if the petitions are filed and approved.

MANY CHICAGOANS MUST GO HUNGRY

(ASSOCIATED PRESS TELEGRAM)

Chicago, Feb. 5.—Cooks, waiters and waitresses employed in a big Randolph street restaurant walked out today because their demands had not been granted. The union officials said the strike would extend to 35 restaurants controlled by the Restaurant Keepers' Association unless their requests for increased wages, shorter hours and one day off each week are complied with. A police guard was asked by the restaurant affected today.
